

SEWER REPLACEMENT AND STREET REPAVING COMING TO MINNESOTA STREET

Contract 1187i

Project Description

San Francisco Public Works has hired Precision Engineering, Inc. to perform sewer replacement work on **Minnesota Street from Mariposa Street to 18th Street.**

This work is scheduled to begin on October 26th, 2023 and take approximately 3 weeks to complete. The anticipated work schedule is subject to change due to rain delays, equipment breakdowns or unforeseen field conditions.

The first step of this project will be sewer main replacement, which will begin at the intersection of Mariposa and Minnesota Streets and progress southward to 18th Street. Once the sewer main is replaced on this block, our crews will then inspect the block's sewer laterals and replace them on an as-needed basis. Sewer laterals are what connect household plumbing to the sewer main.

After all sewer work on this stretch of Minnesota Street is complete, we will then re-pave the block. You will receive another notice before we begin paving work.

Please Note: No interruption of sewer service is expected during construction. Please continue to use your household plumbing as usual.

Impacts and Restrictions

Street parking will not be possible near the work zone during construction work hours. Please see the posted barricade signs for exact work hours, days, and locations. Work hours may vary depending on the construction task.

Vehicles parked in the construction zone during the posted work hours will be towed at the vehicle owner's expense. "Tow-Away/No Parking" signs will be posted a minimum of 72 hours prior to start of construction to alert motorists of upcoming parking restrictions.

We apologize for the inconvenience and thank you for your patience as we make improvements to San Francisco.

Work Hours

Monday - Friday: 7AM – 5PM

Saturday-Sunday: 8AM - 6PM

Note: Weekend work is allowed however none has been scheduled at this time.
