

SEWER REPLACEMENT AND STREET REPAVING COMING TO WISCONSIN STREET

Contract 1187i

Project Description

San Francisco Public Works has hired Precision Engineering, Inc. to perform sewer replacement work on **Wisconsin Street from 20th Street to 22nd Street.**

This work is scheduled to begin the week of September 11th, 2023 and take approximately 8 weeks to complete. The anticipated work schedule is subject to change due to rain delays, equipment breakdowns or unforeseen field conditions.

The first step of this project will be sewer main replacement, which will begin at the intersection of Wisconsin and 20th Street and progress southward to 22nd Street.

Once all sewer work on this stretch of Alabama Street is complete, we will then construct 8 new curb ramps at the intersection of 22nd and Wisconsin. The final step of this work will be re-pave the block. Paving work will progress as follows:

Day 1 - During the grinding phase (removal of existing asphalt from the roadway) access to enter and exit driveways and garages will be maintained, however delays should be expected if crews are working in the lane closest to your driveway. Please plan for slight delays and allow yourself extra travel time on this day.

Day 2 - During the paving phase, driveway access may be delayed while crews work on the lane closest to your driveway. The contractor will apply a tack coat (liquid asphalt) to the roadway in advance of hot asphalt. The tack coat promotes bonding between the concrete base and the hot asphalt. During application of the tack coat and new asphalt, driveway access will not be available until the asphalt cools down to a safe temperature.

Impacts and Restrictions

Street parking will not be possible near the work zone during construction work hours. Please see the posted barricade signs for exact work hours, days, and locations. Work hours may vary depending on the construction task.

Vehicles parked in the construction zone during the posted work hours will be towed at the vehicle owner's expense. "Tow-Away/No Parking" signs will be posted a minimum of 72 hours prior to start of construction to alert motorists of upcoming parking restrictions.

Please Note: No interruption of sewer service is expected during construction. Please continue to use your household plumbing as usual.

We apologize for the inconvenience and thank you for your patience as we make improvements to San Francisco.

Work Hours

Monday - Friday: 7AM – 5PM

Saturday-Sunday: 8AM - 6PM

Note: Weekend work is allowed however none has been scheduled at this time.
