1 Dr. Carlton B. Goodlett Place, City Hall, Room 348  
San Francisco, Ca 94102

### THIRD STREET BRIDGE CONSTRUCTION UPDATE

A PROJECT OF THE CITY'S TEN-YEAR CAPITAL PLAN  
There is only one San Francisco and we're taking care of it.

San Francisco Public Works will be making improvements to your neighborhood. This work will begin soon. Please look inside for more information regarding street access, work schedule, and street parking. If you have any questions or concerns, please contact us. We thank you for your cooperation and patience during construction.

## Third Street Bridge Pre-Construction Survey Update

### Dear Third Street Bridge Neighbor,

This is an update regarding pre-construction activity as part of the **Third Street Bridge Rehabilitation Project** (contract no. 2317J). As previously announced in the project update issued on 8/1/18, the Third Street Bridge was to be closed intermittently for short periods of time to vehicular, bicycle and pedestrian traffic during the hours of 10 AM and 2 PM on Wednesday 08/08/18 and Friday 08/10/18. This was to allow for access for the contractor to perform pre-construction surveys of the bridge prior to the start of construction in **mid-September 2018**.

Due to unforeseen coordination issues and unfavorable tide conditions, we unfortunately had to postpone this activity until the end of August or early September.

As a result, Third Street Bridge traffic will not be impacted this week as originally anticipated. We will provide more specific information about the rescheduled closure once we coordinate the timing for this pre-construction survey work.

We apologize for this last minute change and any inconvenience this may have caused.

We thank you for your understanding and patience as we work to rehabilitate and make these much needed infrastructure repairs on the Third Street Bridge.

For the latest project updates and information, and to sign up for regular project updates, please be sure to visit [www.sfpublishworks.org/ThirdStreetBridge](http://www.sfpublishworks.org/ThirdStreetBridge).

**\* Please Note:** Construction schedules are subject to change due to rain or other weather delays, equipment breakdown, and/or unforeseen field conditions. Please visit [www.sfpublishworks.org](http://www.sfpublishworks.org) for the latest updates and information.

### Upcoming Impacts and Restrictions:

During a majority of the rehabilitation work, the bridge will be locked in the down position. Access across the Third Street Bridge will be available during a majority of the rehabilitation work for vehicles, bicycle and pedestrian traffic, but please note that traffic lanes may be reduced or shifted during construction and during some phases of construction.

Waterway access will be restricted to large maritime vessels that would require the bridge to be raised. Small vessels, including kayaks and other similar sized vessels able to safely navigate under the bridge without the need for the bridge to be raised will be allowed.

Please also note that crews will periodically need to fully restrict access to the bridge for short periods of time when rehabilitation work requires for the bridge to be raised and locked in the full upright position.

Access to private or commercial buildings and pedestrian pathways on either side of the bridge will be maintained at all times, however, delays may be possible. Please observe all posted restricted parking and traffic signage and allow extra travel time through the area in case of traffic delays during construction.

We apologize in advance for any inconvenience construction activity may cause.
