Third Street Bridge Rehabilitation Project Upcoming Night Work Notification

Dear Residence / Business Owner,

American Bridge Company will soon begin scaffolding installation work after normal work hours as part of the **Third Street Bridge Rehabilitation Project** (Contract Number 1000007012) to facilitate rehabilitation of the Third Street Bridge, “Lefty O’Doul Bridge”, located just south of Oracle Park on Third Street.

Night work is being performed to facilitate the installation of scaffolding over the roadway. This phase of work is scheduled to begin **Monday, June 3, 2019 at 8 PM** and work is anticipated to continue each evening from 8 PM to 7 AM the following morning through **Friday, June 7, 2019 at 7AM**. Scaffolding installation work will also require a **temporary full closure of all travel lanes on the 3rd Street Bridge for 30-minute intervals** to allow for crews to safely install the scaffolding system over the roadway. Access across the bridge will be temporarily restricted for up to 30 minutes at a time for all vehicle, bicycle and pedestrian traffic.

Every effort will be made by the contractor to minimize construction related noise impacts during nighttime work, but please note that general construction related noise from the use of heavy equipment such as forklifts and generators and manual hammering to secure scaffolding, is to be expected.

Further Third Street Bridge Rehabilitation Project details and project updates is available at:
www.sfpublicworks.org/thirdstreetbridge.

Location of Work: 3rd Street Bridge on 3rd Street between Channel Street and King Street.

Night Work Hours: 8 PM to 7 AM
