

Civic Design Review Committee Meeting: Monday, October 20, 2014, 2:00 p.m. 25 Van Ness Avenue, Suite 70

Plans for the upcoming construction of the new Office of the Chief Medical Examiner will be presented at the San Francisco Arts Commission Civic Design Review Committee on Monday, October 20, 2014 at 2:00 p.m.

San Francisco Public Works and the San Francisco Arts Commission encourage public comment from any interested community members.

With funding from the 2014 Earthquake Safety and Emergency Response bond, the City will build an improved Office of the Chief Medical Examiner at 1 Newhall Street, providing a seismically safe structure, professional work environments, and the facility necessary for city-wide medical examiner emergency response capabilities.

The Civic Design Review Committee is comprised of architects and designers who review new and renovated civic projects to ensure that San Francisco has the highest quality architecture and design. It is the Arts Commission's responsibility to approve of the design of structures on City property as identified in Charter Section 5.103.

Public input is welcome and encouraged.
